Attn. Mr D Bryce

Dear Sir

Request for Planning Observations

Ref: 09/0796/PP

Site: Land between Greenock Road and former Royal Ordnance Factory, Bishopton

Proposal: Construction of Access Road

I refer to the planning application at the above subject address.

Having considered the proposals within this application, Strathclyde Partnership for Transport (SPT) have the following comments to offer.

Bus Service Access

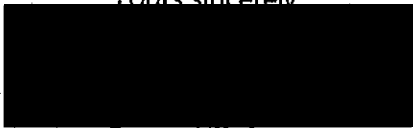

Outline planning permission (06/0602/PP) granted for the Community Growth Area recognises the requirement for the development to be serviced by public transport and therefore suitable bus provision must be designed into the layout from an early stage. SPT welcome the proposed road width of 6.5m which would provide significant road space to allow bus movements through the site.

Walking & Cycling

SPT welcome the inclusion of separate walking and cycling way adjacent to this access road as this will help to encourage sustainable travel.

Thank you for consulting SPT on this matter. If you require any additional information or clarification, please contact Elizabeth MacKay on the above telephone number.

Yours sincerely

Bruce Kiloh
Director of Policy and Strategy

Cc Bryan Tenant, SPT
