Dear Sir/Madam,

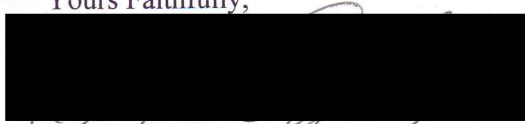

Outline Planning Application - ROF Site, Bishopton

I write regarding the recent notification we received in respect of the above outline planning application.

On studying the application at your offices in Paisley, I would wish to comment that given the scale of this proposed development, and the subsequent impact that it will have on a wide range of Health Services, should it proceed. I would request there be close consultation with NHS Greater Glasgow & Clyde throughout the process, so that it may assist us in planning services for the future within the Bishopton area.

Thank you for your assistance.

Yours Faithfully,

Eugene Lafferty
Project Manager - Primary Care
