Our ref: Case 2640/1 Part 4

Date: 23 November 2006

Dear Sir/Madam

**ENVIRONMENTAL IMPACT ASSESSMENT (SCOTLAND) REGULATIONS 1999
CONSTRUCTION OF A LANDFILL FACILITY AT WESTERN EDGE (EAST OF
TURNINGSHAW ROAD) OF THE ROYAL ORDNANCE SITE, STATION ROAD,
BISHOPTON**

I refer to your recent consultation under the 1999 Regulations with the Scottish Ministers about the proposed development named above.

This response relates to the Scottish Ministers' responsibilities for water supply, water protection, sewerage, flood prevention, coastal protection, waste disposal and air quality. Consideration is being given to the other responsibilities of the Scottish Ministers, including countryside and natural heritage and you may expect separate responses on these aspects.

In relation to the above case, on the basis of the information available and without prejudice to any further consideration the Scottish Ministers may be required to give, we have no comments to offer on the Environmental Statement.

Yours faithfully

Eleanor Vance
