Dear Sir

Planning Application Reference: 09/0456/PP
Planning Application Reference: 09/0527/PP

I write on behalf of Bishopton Community Council as we wish to make observations on the above planning applications.

As you are no doubt aware within Bishopton there is a heightened awareness of the issues involved in these applications. There are significant concerns in some sections of the community regarding possible contamination of the existing community during any remediation work. We have forwarded any communications received on these matters to you, and we shall continue to do so.

We ask for reassurance that the processes used and materials being handled at Bishopton will not expose the community to any undue risk both during the remediation and landfill work and subsequent to that work being completed.

We also seek reassurance that, if permission is granted, every measure is taken to reduce any risk to both the workers carrying out this work and to the wider community.

Yours sincerely,

Alison Russell
Secretary
for Bishopton Community Council
